FXT CALDB--on ground

FXT in-orbit calibration subjects

- Background
- Plate scale and boresight
- Filter integrity
- Soft X-ray response and contamination monitoring
- Gain and CTI
- PSF (on/off axis)
- Effective area ,QE, flat-fielding, and vignetting
- Optical loading
- Timing
- Power-law type spectrum
- Cluster of galaxies
- Coordinated observations

FXT In-orbit calibration Objects

- Background (Closed, blank sky, Lockman Hole)
- Plate scale and boresight (global/open cluster)
- Filter integrity (global/open cluster)
- Soft X-ray response and contamination monitoring(RXJ 1856)
- Gain and CTI (Puppis A, CasA, 1E0102)
- PSF(on/off axis) (PG 1634, 3c273, RXJ 1856)
- Effective area ,QE, flat-fielding, and vignetting(galaxy cluster, SNR)
- Optical loading (stars)
- Timing (Crab, other Pulsars)
- Power-law type spectrum (3c273, Coordinated obs)
- Cluster of galaxies (A1795, A3571)
- Coordinated observations (3c273)

FXT In-orbit timeline

- The EP satellite was launched at 15:03 on January 9, 2024, from the Xichang Satellite Launch Center.
- - January 19, 2024: WXT was powered on, beginning in-orbit calibration observations.
- - January 25-26, 2024: FXTA was powered on.
- - February 6, 2024: FXTA & FXTB were powered on.
- - February 22, 2024: FXTA cover opened—FXTA observation.
- - February 28, 2024: FXTB cover opened—FXTA & FXTB observation.
- - March 4, 2024: WXT completed calibration observations.
- - **March 5-19, 2024:** FXT in-orbit testing.
- - March 20-23, 2024: WXT sky survey observations.
- - Mar 24 - Apr 5, 2024: EP-PV observations.
- - **From April 5, 2024:** FXT began in-orbit calibration observations.
- - **Until June 2024:** EP completed in-orbit calibration and began AO1.

FXT In-orbit calibration observations

Part 1: FXT In-Orbit Testing (March 5-19, 2024)

Target	Date	Filter	Notes
NGC 2516	05/03-08/03	Medium	Center pixel, Matrix
Crab	08/03-09/03	Medium	FF/TM/PW Timing
Omega Cen	09/03-11/03	Thin	Center pixel, filter integrity
3c 273	11/03-13/03	Medium	PSF, Power-law spec
Vela SNR	15/03-17/03	Thin	EC, ARF
M87	17/03-19/03	Thin	EC, ARF

Part 2: FXT In-Orbit Calibration Obs (From April 5, 2024)

M87 /Fe55	05/04-06/04	Medium	EC, ARF
RXS J 170849	06/04-07/04	Thin	Timing
Puppis A	07/04-08/04	Thin	8000s GTI,EC, image
Puppis A E Knot	08/04-09/04	Thin	EC
RXJ 1856	09/04-11/04	Thin	Low-E resp, contamination
3C 273	11/04-15/04	Medium	PSF off-axis
M87	15/04-16/04	Medium	EC, ARF
Puppis A	16/04-18/04	Thin Filter	EC, image,ARF
A1795	18/04-22/04	Thin/Medium	ARF

Preliminary verifying of initial CALDB

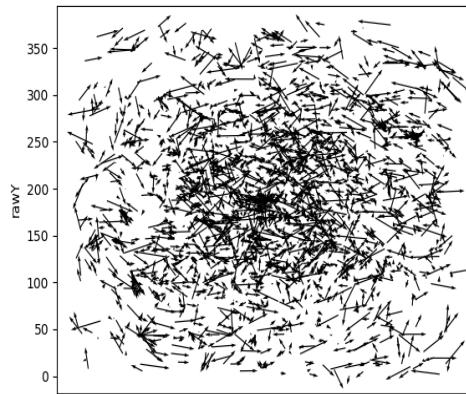

First Light: a positioning deviation of $\sim 2'$

Center Pixel:

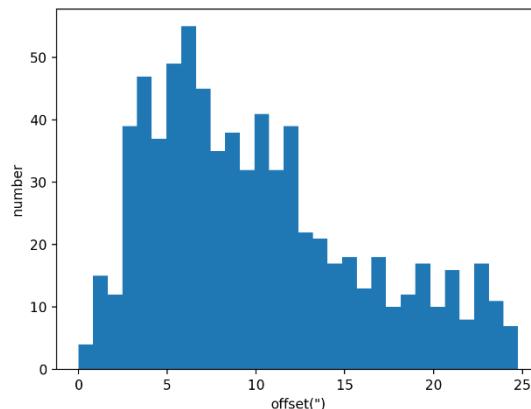

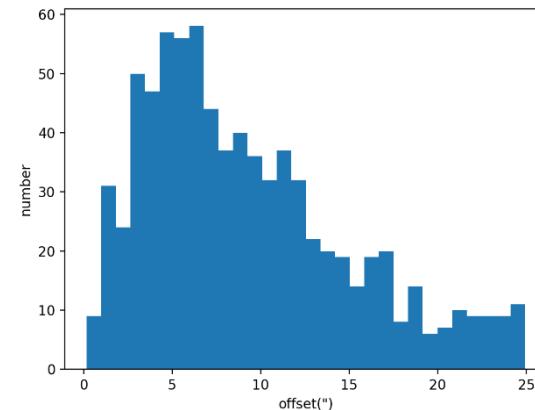

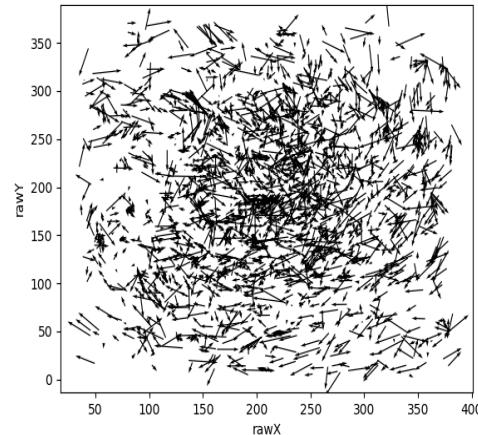

an initial update was made (A: March 2nd; B: March 8th), with a deviation of $\sim 10''$ (on-axis).

FXTA

Deviation arrows (zoom in 10x)

FXTB

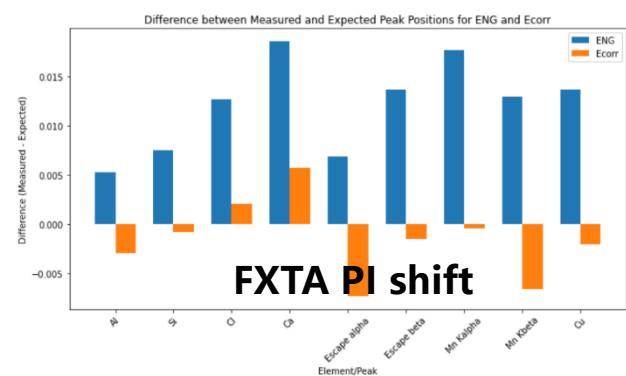

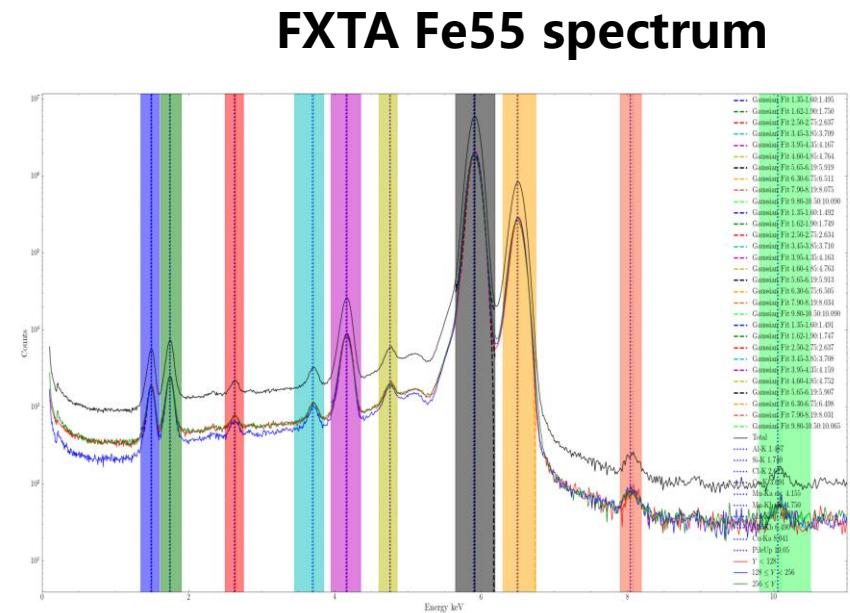

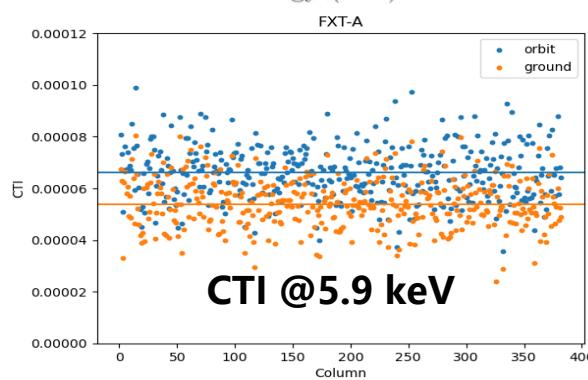

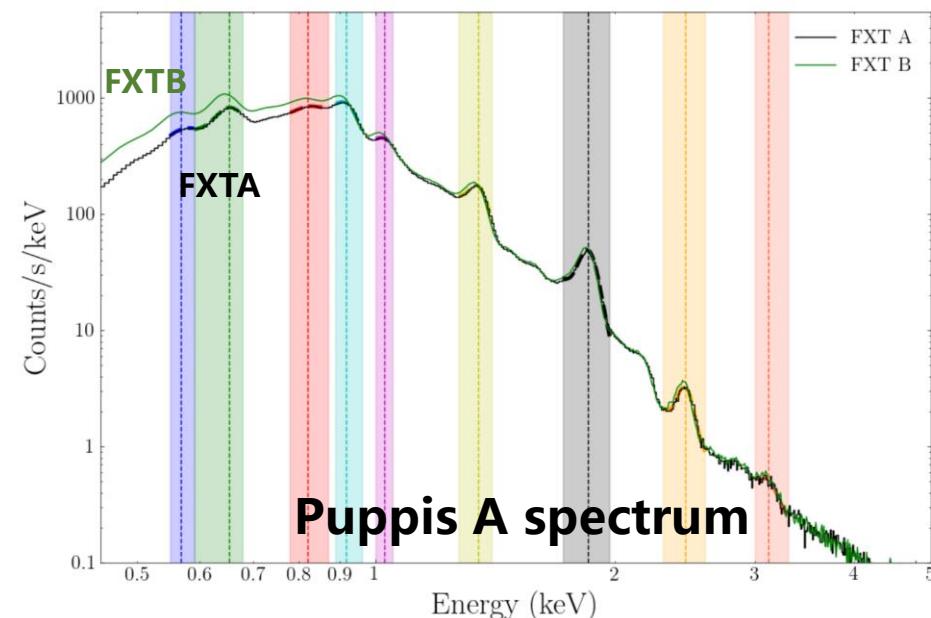

Preliminary verifying of initial CALDB

E-C verify: Fe55~10 eV

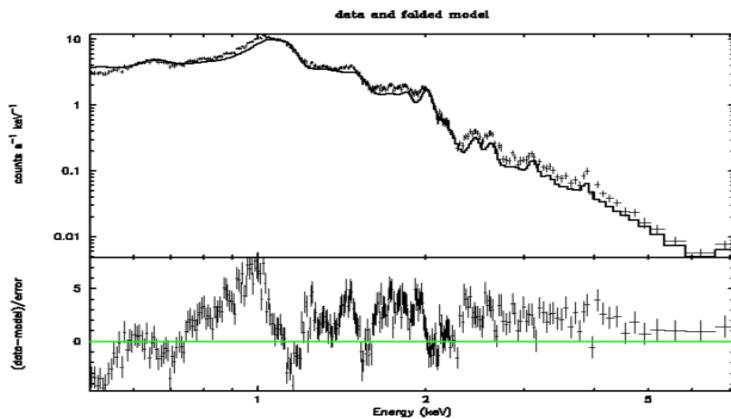

Temperature FXTA: -95° FXTB: -90°

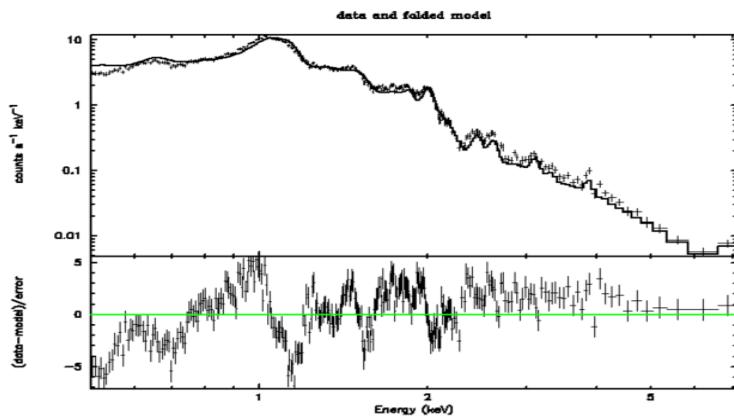

Preliminary verifying of initial CALDB

ARF verify: ~10%

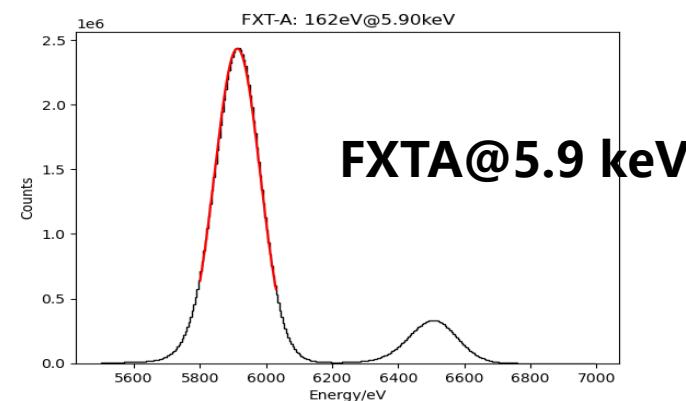

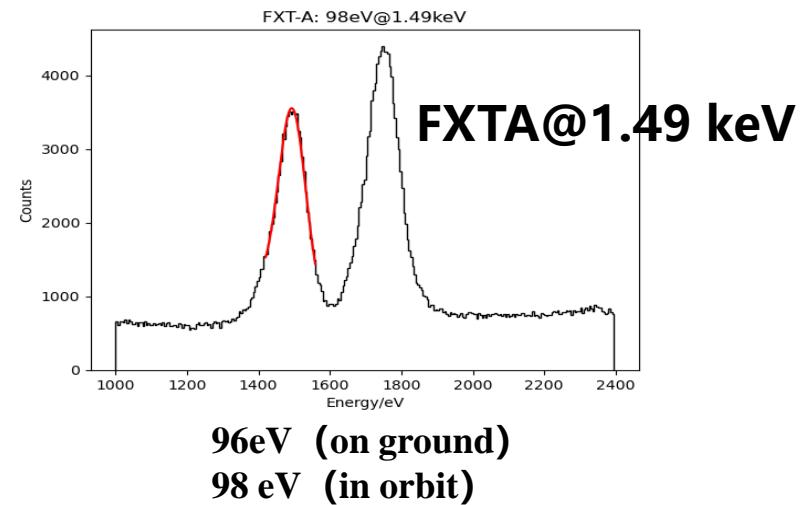

×1.08

FXTA-M87 spectrum

RMF verify:

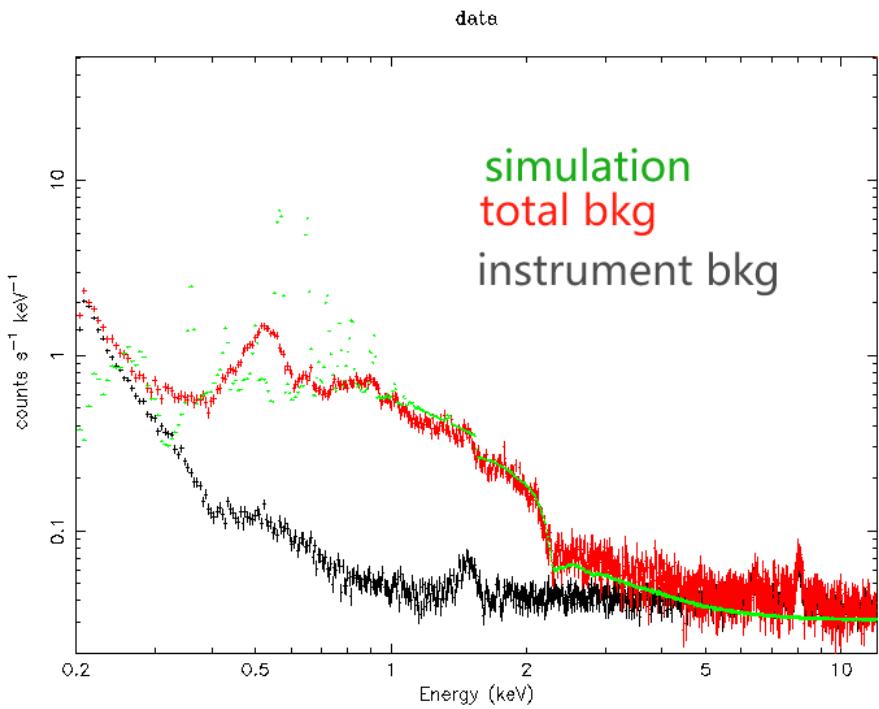

**157 eV (on ground)
162 eV (in orbit)**

Preliminary verifying of initial CALDB

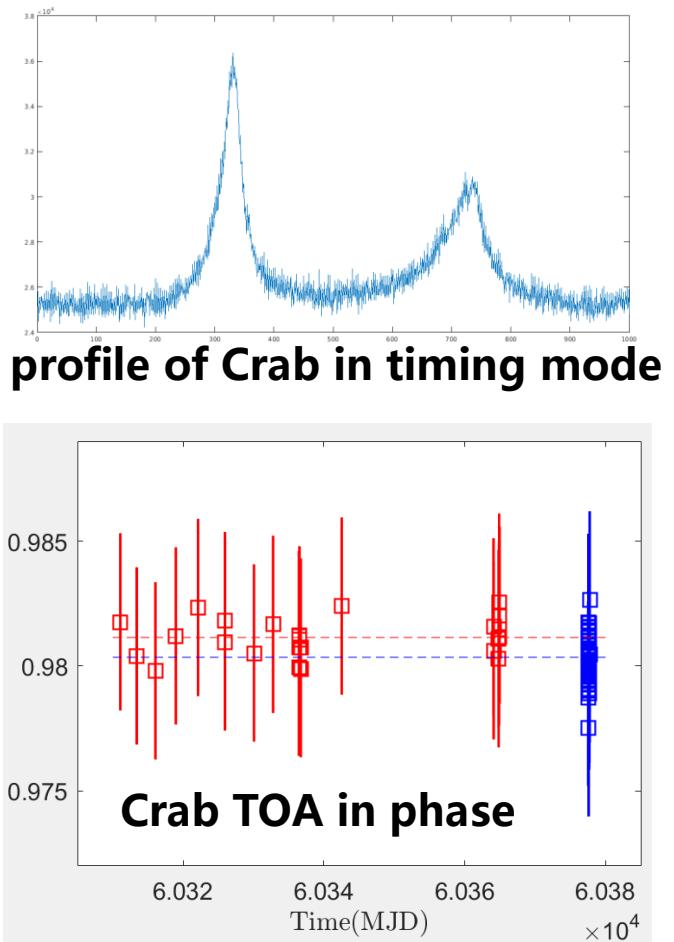

**back ground verify:
Similar to simulation**

**Blank sky and Closed position
spectrum**

Timing verify:

**Temporal stability $\sim 30\mu\text{s}$
Absolute timing $<30\mu\text{s}$**

FXT In-orbit Calibration Work Plan

- Plate scale and boresight (NGC2516, Omega Cen, **already observed**)
- Gain and CTI (Fe55, CasA, 1E0102, N132D)
- PSF(off axis) (~~PG 1634~~, 3c273, RXJ 1856)
- Effective area ,QE, flat-fielding, and vignetting(galaxy cluster, SNR)
- Timing (Pulsars: Crab, millisecond and other Pulsars)
- Coordinated observations (work with IACHEC)
- Monitoring every 6 month: RXJ1856, 1E0102, Fe55

summary

- **On-ground:**

The results of the ground calibration experiments have been extensively analyzed and entered into the calibration database. However, we may need to reanalyze and update the CALDB.

- **In-orbit:**

The in-orbit calibration observation have started for more than 10 days, and there are still over 50 days of calibration plan. Currently, the results have only been preliminarily verified, and the calibration database will need to be modified subsequently.

Thank you
